

## GARDEN ON CORNER OF GREY/FRIARS

I have been employed by Fife Council for a number of years now, and on lots of occasions for the safety of the public removed and dispensed of various items strewn around the garden such as, bottles of Pils tin foil used for Cocaine use, broken glass, human faeces, discarded clothes, beer bottles, cans, etc. It is often used as a toilet by the beggars who have frequented Market St for many years, and on one occasion a homeless man pitches a tent there, of which he used as a drug den with his friends.

This garden is in a lovely central location in St Andrews

## Document 17b

At the moment it is not a good advert for people visiting the town.

The Mary Queen of Scots Garden is a fantastic vision from the group, and would give the many visitors to the historic town a lovely place to sit and relax away from the bustle of St Marys and Market St.

It would be great to see such a neglected area being transformed into a lovely public garden worthy of such a lovely town.

Yours
