2 Greyfriars Garden
St Andrews, Fife
KY16 9HG

To whom it may concern,

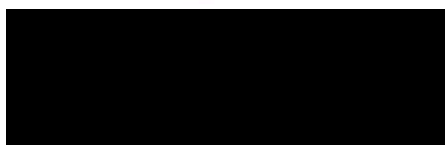

I would like to bring to your attention regarding the garden across the road from my business premises in St Andrews. For a good while now it seems the garden has become the go to place for public lavatory facilities.

I personally witness people of all genders and ages using the garden for this purpose, some being discreet and others far less so. I think this is quite unacceptable as this is surely a public Health hazard and very unsavoury in the centre of the town.

If you could look into this I would be more than grateful.

Email: 

Yours sincerely,

Michael Wyles
